Hello Everyone!

As the teacher in the 4/5 class I am constantly delighted by the students’ commitment to their work and school. This term has been no different! The students returned to class with a renewed effort in regards to their schoolwork, homework and behaviour.

We were well represented at Caffey sports- with all the students proudly cheering for their school and having a go at all of the events. We were all very proud when Melbourne won age champion (you should have heard our cheer!)

During class time we have been tackling traditional stories, personal recounts and exploring space. In art we have been exploring painting by making a colour wheel and creating our own version of Vincent Van Gogh’s Starry Night. All whilst earning as much fast cash as possible!

Until next time,

Alex Gibney

This term in class we have been learning in the areas of Art, Science, Health and lots more! During Art we have been painting our own version of the Starry Night. In science we have been exploring space and learning about the I.S.S, telescopes, the inner planets and lunar/solar eclipses. My favourite thing in class this term would be Art, because I enjoy drawing and sketching. However, I have also enjoyed science and learning about planets and the Solar System.

By Jessica Chalker

The thing that I have enjoyed the most this term is all the fun that we have with Miss Gibney on Friday afternoons. We get to have fun on Friday afternoons as a reward for our hard work during the week. Normally, we experience new games. My favourite game that we play is Wink Murder. I also like Monsters Treasure, where we have to work as a class to beat Miss Gibney! However, Miss Gibney is always there to help us and join in. Miss Gibney is awesome, however, mainly her games!
